Yashas. N

24/09/2001 | yashasn37@gmail.com | yn37git.github.io
Thriruvananthapuram, Kerala, India.

Education

PhD in Mathematics July 2025 - Ongoing
Indian Institute of Science Education and Research, **Course work CGPA 9.16/10**
Thiruvananthapuram, Kerala, India.

- Relevant coursework: Partial differential equations, Numerical analysis, Analysis on Manifolds, Sobolev Spaces and Finite element method.
- Research Supervisor/Guide: Dr. Sudarshan Kumar K.
- Research area/interest: Numerics on hyperbolic conservation laws (approximation and analysis using finite volume schemes).

Master's in Mathematics August 2022 - June 2024
M.S. Ramiah University of Applied Sciences, **CGPA 9.74/10**
Bangalore, Karnataka, India.

- Relevant coursework: Machine learning, Numerical analysis, Differential geometry, Number theory, Fluid mechanics, Algebra, Analysis, Probability and Statistics.
- Master thesis on 'Arithmetic properties of (ℓ, m)-regular colored partitions' under the guidance of Dr. Chandankumar S.

Bachelor's in (Physics, Chemistry, Mathematics) August 2019 - May 2022
St. Joseph's college (Autonomous), **CGPA 9.41/10**
Bangalore, Karnataka, India.

- Relevant coursework : Real analysis, Group theory, Differential equations, Modern physics, Electronics and General chemistry.
- Bachelors project on 'Paradoxes in Mathematics'.

Summary

From many years of dedicated mathematical training, I have developed a strong understanding of fundamental concepts and their underlying principles. This knowledge has equipped me with the ability to approach and solve problems effectively, teach and clarify complex ideas to others, and contribute to fostering a positive and collaborative academic environment.

Miscellaneous Experience

- Implemented several numerical schemes for conservation laws in python (pre-existing schemes).
- Implemented algorithm to compute coefficients of partition functions in python and created a website to portray the results; which helped me find and verify several congruence relations of these partition functions.

Skills

Programming Languages/systems : Python, Matlab, LaTeX, Git, Markdown.

Certifications and Awards

- Gold Medal in Msc. from Faculty of Natural Science, M.S. Ramaiah University of applied sciences.
- Data Science internship from InternForte.
- Introductory Graphics Design course from St. Joseph's College.

Exams and Scholarships

- INSPIRE (DST) (Level 1, June - 2025) (not availed).
- GATE (Rank 418, February - 2025).
- CSIR NET-JRF (Rank 88, December - 2024) (availed).
- KSET (Rank 16, November - 2024).

Publications

1. Arithmetic properties of (ℓ, m)-regular colored partitions, Yashas N., C. Shivashankar and S. Chandankumar, communicated, https://arxiv.org/abs/2505.12270.

Personal information

Languages: English, Kannada and Hindi.
